# Our initial Catena-X Business Domains

**NETWORK &  
CORE SERVICES**

**SUSTAINABILITY**

**RESILIENCY**

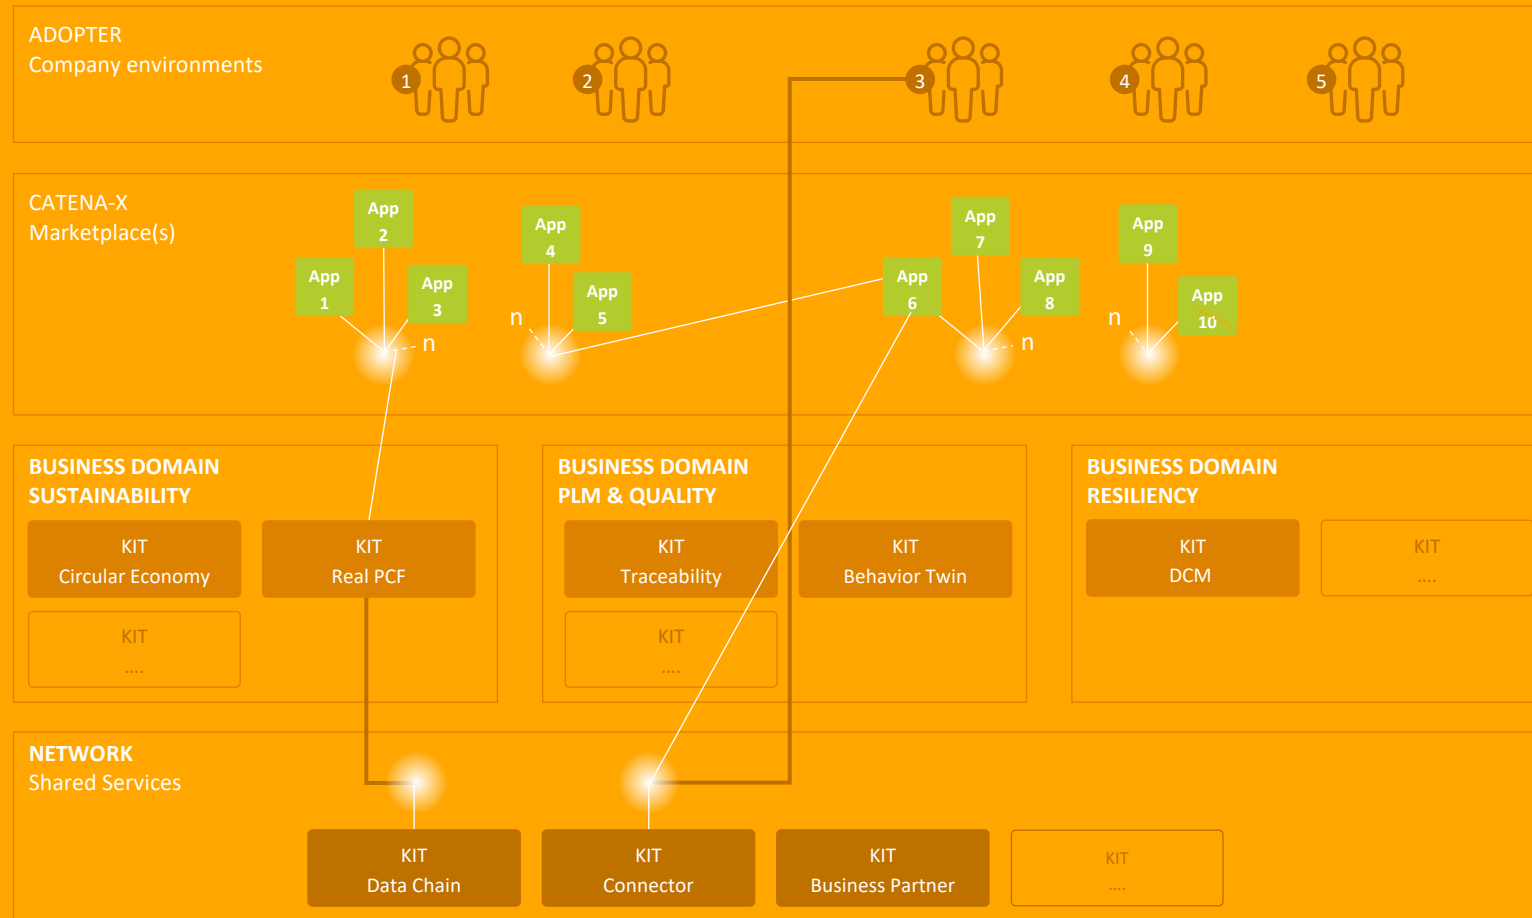

**PLM & QUALITY**

# How does the network support collaboration?

# Why are KITs so important?

Kits are part of the Eclipse project Tractus-X, which is open for use and collaboration within a community of developers.

Mutually developed standards and artifacts foster trust and collaboration governed by the association.

Kits development is the foundation for further use cases, business applications, and services.

 Tractus X

KITs will keep  
working for you
