

Catena-X

Consulting Qualification Process

The path to becoming a qualified consultancy

On the path to value creation with Catena-X, companies may depend on consulting services. The quality of this consulting is decisive for the success of the participation and thus for the success of Catena-X.

Catena-X can only succeed if it manages to integrate large parts of the automotive value chain. We assume that this will lead to a high demand for consulting services, which must be met. These consulting services need to meet the needs of both small and medium-sized enterprises and address the requirements of large companies with advanced integration needs.

Catena-X would like to support interested companies and therefore maintains a directory of qualified consulting companies. We offer interested consulting companies the opportunity to be included in this directory by providing a qualification certificate.

If your company is interested in qualification or providing the qualification certificate, the first step is to get in touch with the association. Please communicate your request in writing to the following email address onboardingcommittee@catena-x.net. You will then receive further information and a first questionnaire to collect basic information about the company.

Consultant Basic Qualification Process

Consultancies inform themselves about qualification on Catena-X Website

Interested consultancies announce their interest by filling out Request for Participation Questionnaire to gain access to further information

Consultancies prepare for final assessment of consulting qualification

Consultancies fill out Basic Assessment Questionnaire to proof their general knowledge about Catena-X

Consultancies get listed on Catena-X Website as qualified
