Your Automotive Network

Agenda

1. Outlook Certification
2. Overview
3. Outlook Recertification
4. Examples and Questions

Outlook Certification

Certification guidelines

- Strict adherence to existing process

- Start of certification period for Release 24.05 on 24.06.2024 and for Release 24.08 on 01.08.2024

- Recommendation to go with Release 24.05 certification and NOT with Release 24.03

- Current: Jupiter Preview (Release 24.03 and 24.05)

- From August: Jupiter Preview (Release 24.03, 24.05 and 24.08)

- From October: Go-live of the Operating Model Jupiter

  - Jupiter is a mix of Release 24.05 and Release 24.08. These releases are provided together and go live together in Jupiter

  - 12th month commitment expires

  - Release 24.03 switched off

24.03.

Release
24.05.

Release
24.08.

Start of certification
period

24.06.2024

01.08.2024

Outlook Recertification

Recertification guidelines

- Expiring certificates have to be renewed - full recertification required

- Standards of Release 24.05 and Release 24.08 = Jupiter Preview

    ➢ Where Release 24.08 overwrites Release 24.05, Release 24.05 no longer applies.

    ➢ If anything else changes on Release 24.08, then a self-assessment must be carried out.

- Complete the self-assessment for (re-)certification provided by the association.

Examples and Questions

- **Scenario 1**: I would like to have my solution certified now, for which Release should I get certified?

  ➢ We recommend to go with Release 24.05 certification and NOT with Release 24.03

  ➢ <u>BUT</u> Release 24.08 is missing for Jupiter: So it is necessary to do a self-assessment for Release 24.08 and that would be complete for Jupiter.

- **Scenario 2**: I am certified for <u>Release 24.03</u>, what do i have to do to get certified for Jupiter?

  ➢ Self-assessment

  ➢ <u>BUT</u> Breaking Change: Please note that Release 24.03 will be switched off and it is therefore essential that you adapt your solution, otherwise the solution cannot go live on Jupiter.

- **Scenario 3**: I am certified for <u>Release 24.05</u>, what do I have to do to get certified for Jupiter?

  ➢ Self-assessment

  ➢ <u>BUT</u> Release 24.08 is missing: So it is necessary to do a self-assessment for Release 24.08 and that would be complete for Jupiter.

- **Scenario 4**: The certificate expires on 01. November. For what should I get recertified?

  ➢ For Release 24.08 respectively then for Jupiter

- How do I get my self assessment?

  ➢ Self-assessment is only required when Jupiter is complete (Sep.or Oct.), but the good news is, that no action required right now.
